## PRODUCT GUIDANCE SHEET

### BRAKES FURNITURE POLISH

A fine wood furniture polish with a rich blend of natural and synthetic waxes with silicones, specially formulated to remove light soiling and sticky marks from all non-porous surfaces leaving a hard, water resistant, smear free finish with a high gloss shine. Ideal for hotels, restaurants, building services cleaning and leisure facilities.

Product Name: BRAKES FURNITURE POLISH  
Description: Ready to use furniture polish  
Pack Size(s): 3x750ml  
Pallet Size(s): 200  
Product Code(s): 129531

### HOW TO USE

Brakes Furniture Polish is used directly from the bottle as a ready to go solution and requires no dilution with water.

- A fine/real wood furniture polish with a rich blend of natural and synthetic waxes with silicones, specially formulated to remove light soiling and sticky marks from all porous wood surfaces leaving a hard, water resistant, smear free finish with a high gloss shine.
- Ideal for hotels, restaurants, building services cleaning and leisure facilities.
- For the best results do not over use. Shake the bottle before use and spray a thin coating evenly over the surface.
- With a soft cloth remove any soiling then using a duster polish and buff the surface to leave a rich gloss finish.
- **Caution:** Do not use on non-porous Formica-like surfaces, veneers or laminates as it will not penetrate and will lead to tacky surfaces.

### Special Note:

- Although housekeepers traditionally like the smell of furniture polishes, in many cases this type of product is not required especially when using on non-absorbent laminates or veneer surfaces.
- When cleaning laminates/veneers use a multi-purpose cleaner. A furniture polish works best on porous surfaces; this means a surface that absorbs the product. A furniture polish works by penetrating the surface and depositing waxes that make the wood surface shine due to conditioning.
- If the surface is a non-porous surface like Formica, veneer or a laminate wood “look-a-like” surface the product will not penetrate the surface and will lead to dried chemical residues and tacky surfaces.
- **Caution: Do not use in conjunction with a multi-purpose cleaner as chemical residues can build up and leave tacky surfaces.**

### SAFETY ADVICE

**WARNING** May cause an allergic skin reaction. Wear protective gloves.

**For further detailed information on this product please refer to the Safety Data Sheet.**

**FOR PROFESSIONAL USE ONLY**

### COSHH STATEMENT

COSHH is a law that requires all employers to take steps to control substances (chemicals) that may cause harm to employees, contractors and visitors to the workplace. Every work environment will be different in terms of the hazardous chemicals that are present, and how these are used, and individual assessments may be necessary to consider how chemicals can be handled and stored safely, in addition to ensuring that appropriate PPE and training is provided for employees. Product MSDS and Product Guidance Sheets are intended to help when carrying out a COSHH assessment, however if further advice is needed with regard to specific issues in your work environment we are happy to provide advice.
