Delivering a better tomorrow

Across Brakes, we're committed to *Delivering a better tomorrow, by...*

Empowering our people and those connected to our business

- Meals & More, the organisation we established in 2015 with the aim to end holiday hunger for children, has helped provide over 1.3 million meals.
- Through our nationwide partnership with Fareshare in 2021 we donated the equivalent of 1 million meals.

Sourcing and supplying a more sustainable product range

- We were the first foodservice supplier to offer RSPO accredited palm oil to customers, and the first to offer MSC certified fish. We continue to uphold high sustainability standards throughout our supply chain.
- Our focus on the sustainability of our product range includes the packaging. Two years ago we removed all hard black plastics from our Brakes brand products, and we're committed to ensuring 100% of the plastic packaging in these products is recyclable, recycled or compostable by 2025.

Improving our impact on the planet by playing our part to tackle climate change

- Since 2010 we've cut emissions from our operations by over 30%, and we continue to invest in creating a low-carbon and sustainable delivery network.
- Renewable energy is key, and the 1 MW solar array at our Harlow depot was completed this year, starting to provide energy from the sun to power our building. We'll continue to install renewable energy generation where possible.
- This year, we'll start running the first multi-temp electric truck of its kind for foodservice – an important step to understand the technology and its potential in our network as we begin to decarbonise our fleet.

Building on the great things we are already doing

100% 

of our plastic packaging will be reusable, recyclable or compostable by 2025

We're reducing food miles with a British first sourcing policy

We've reduced our carbon emissions by over

 30% since 2010

Our first electric truck will join the fleet this year. The next step towards low-carbon distribution

Fiber Lids.

Our plastic free innovative and recyclable molded fiber lids are an excellent fit for our Impresso double wall hot cups. They are made from responsibly sourced wood fibers and are now manufactured in Europe.

Proud to support sustainable sourcing and the principles of the EU Timber Regulation, No 995/2010

Fiber Lids

Plastic Free
Available in 80mm or 90mm diameter
Mono material – renewable and sustainably sourced

*Recyclable via paper recycling streams

Impresso double wall hot cups

Great insulation
Available in three sizes: 9oz, 12oz & 16oz
Leakproof with a secure lid
Ideal for delivery, dining in or on the go

*Recyclable where facilities exist

Impresso double wall hot cups.

Our Impresso hot cups are made in the UK and provide an extra layer of insulation for use with all hot drinks, while using 25% less material versus other insulated and double wall cups in the market. This way we can help reduce your packaging waste without compromising on performance.

Quality Cleaning Products
Since 1951

Helping to make Britain cleaner for over 70 years

As a proud UK manufacturer of professional hygiene supplies, you can be assured of consistent quality products.

SUSTAINABLE PRODUCTS FOR A CLEANER TOMORROW

Our sponge, scourers, mops and textile cloths are manufactured here in the UK. Keeping transport related CO² emissions to a minimum.

All of the yarn used for our cotton mops and dishcloths are manufactured from regenerated textiles. This recycling process is not only sustainable but also prevents tons of textile waste from entering landfill.
