

create dishes that are creamy, not cow-y

Creamy, rich, versatile.
Flora Plant Double 31% does everything dairy does and more:

- Serves everyone with no allergens to declare
- Reduces complexity in the kitchen, no more workarounds
- Works in sweet or savoury, cooking and baking applications
- Helps reduce your kitchens carbon footprint

At a glance

Outdoes dairy in every application

- ✓ Whips quickly and won't overwhip
- ✓ Stays whip stable for 4 hours
- ✓ Bain-marie stable
- ✓ Acid and alcohol stable
- ✓ Heat stable

One simple swap for the planet

With increasing ESG benchmarks and rise of conscious consumerism, ingredients that can lower your carbon footprint are a big bonus in the kitchen.

Flora Plant Double 31% has 60% lower climate impact compared to the same amount of dairy cream*. **In just one year you could save 7945kg of CO₂e**** which is equal to running a commercial fridge for 405 days!

*Source: Quantis LCA Assessment commissioned by Upfield Professional, EU, 2021
** based on calculation of 5kg dairy cream use per day

The proof is in the pudding

Flora Plant Double 31% is an incredibly versatile ingredient that can work across an entire menu – savoury or sweet, hot or cold. The only limit is your imagination.

Here's a flavour of just some of the mouth-watering recipes you can use it in:

Kaffir Lime Tofu Cheezecake

Cheezy Potato Gratin

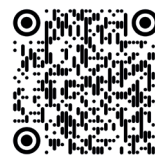

Creamy Ceviche

Eton Mess

Roast Asparagus with Avocado

Quality, inside and out

To serve the best, you have to use the best. Flora Plant Double 31% is a product that will feel right at home in your kitchen.

- ✓ Powered by plants: made with lentils and vegetable oils
- ✓ No allergens to declare
- ✓ Palm oil free
- ✓ Halal and Kosher certified
