

CINDERS[®]

The World's Most
Dependable Grill

CINDERS SLIMFOLD

Just as hot after 45yrs

We haven't changed how we cook meat for decades, because you can't improve on perfection.

Cinders Barbecues

The World's Most Dependable Grill.
Timeless Design. Built to Perform.

At Cinders Barbecues, we don't just make grills, we build icons of outdoor cooking. For over 45 years, our signature open grill has earned a reputation as the most dependable in the world.

From the frozen frontiers of Antarctica to the heat of Dubai, our grills perform flawlessly in extreme environments. Reliability isn't optional, it's essential.

Rooted in the North of England, every unit is handcrafted in our 15,000 sq. ft. facility, where CNC precision meets British craftsmanship. The result: timeless design, proven durability, and uncompromising performance.

Trusted by hotels, pubs, and street food professionals worldwide, Cinders is the grill of choice for those who refuse to compromise on quality. Backed by ISO 9001:2015 certification, we're proud to set the highest standards.

Cinders Barbecues. Built to Last. Trusted Worldwide

The Benefits of Large Scale BBQs

British Heritage

Proudly handcrafted in the UK since 1980.

Practical Perfection

Long, open grill design for capacity and efficiency.

Unmatched Reliability

Built from high-grade materials, tested for any environment.

Consistent Flame Quality

Even heat distribution and dependable ignition.

Made to Endure

Precision manufacturing in North Yorkshire.

Trusted by Leaders

Used by hotels, pub groups, and caterers worldwide.

Certified Quality

ISO 9001:2015 certified for proven performance.

Why a Cinders Barbecue for Charcoal Cooking?

1

Lancashire Facility

15,000 sq. ft. combining laser technology and craftsmanship.

2

Precision Meets Quality

German-engineered controls, 304/430 stainless steel, CNC accuracy.

3

Handcrafted with Purpose

Original 1980 design, refined over decades but always iconic.

**Unrivalled performance. Timeless design.
Proven for over 45 years.**

Global Reach

Delivering taste sensations around the globe.

CINDERS® SLIMFOLD

Slimfold TGN80, TGN120 & TGN160 Foldable Gas BBQ

FOR HOME FOODIES

FOR PRO CHEFS

Introducing the brand-new UK-manufactured Slimfold TGN80 Foldable Gas BBQs.

Compact, foldable gas BBQs (TGN80, TGN120, TGN160) with powerful burners, grease management, and safety systems. Ideal for portability without sacrificing performance.

Compact and Foldable Design

The Slimfold offers a sleek, space-saving design that folds flat for easy storage and transport.

Powerful Gas Performance

High-performance stainless-steel burners ensure even heat distribution, delivering perfectly cooked food every time.

Battery Ignitor System

The battery-powered ignitor provides a quick and reliable startup at the push of a button, offering a more consistent alternative to traditional Piezo systems.

Smart Grease Management System

Designed to minimize mess, this system burns away food debris during cooking, leaving you with less cleanup after your meal.

Durable Chrome-Plated Legs

Sturdy and corrosion-resistant, the chrome-plated legs offer stability and longevity, making the Slimfold BBQ dependable even in outdoor environments.

Versatile Propane Compatibility

The BBQ is compatible with both 5kg and 11kg propane bottles and comes with a regulator for easy connection.

Quick, Tool-Free Setup

Assemble and start cooking in minutes without the need for tools.

Plancha Accessory (Optional)

Elevate your cooking versatility with the 4mm stainless steel cooking plancha, ideal for making smash burgers or a full English breakfast. The flat cooking surface ensures even heat distribution for items like eggs, bacon, sausages, and more, offering a seamless way to expand your menu.

Durable Construction

Made with 430 stainless steels, the BBQs are built to last, managing the demands of outdoor cooking with ease.

Easy Cleaning

A removable stainless-steel grate makes post-cooking cleanup quick and simple.

Flame Supervision Devices (FSD)

For maximum safety, the Cinders Slimfold range are fitted with advanced Flame Supervision Devices (FSD). These smart safety systems automatically shut off the gas supply if the flame is extinguished, ensuring reliable protection. This makes the Slimfold range well-suited for busy, high-demand environments where safety cannot be compromised.
