

BIBENDUM BY BRAKES

WINE LIST

FOREWORD

We've created three lists to help you choose the right wines for your business and to demystify this category.

Each wine list is tiered to save you time and contains well known varietals plus a few wines that will encourage premiumisation.

Whether listing in a wet-led pub, healthcare setting or premium restaurant, these ranges are designed to suit a variety of outlets that want to serve good quality wines.

The lists can be modified and are a great start to creating your own wine list, with more options available on our website and they all include food pairing suggestions too.

Bronze – Our bronze range, suitable for smaller businesses who want to provide a good selection of reasonably priced whites, rose, reds and sparkling. Includes full sized bottles alongside single serves.

Silver – An exciting range with additional choices including Champagne, Malbec, and Cabernet Sauvignon, across all varietals to encourage premiumisation.

Gold – A complete range of worldwide wines including British sparkling, Albarino and Pinot Noir, to name a few. These wines offer choice and variety to complement your menu.
