Customer Service **0345 606 9090**

F (product code) – frozen food C (product code) – chilled food A (product code) – ambient food & non-food

NB: You do not have to use the F, C or A prefix when ordering. The product names and descriptions within this publication are not intended to constitute the full legal description of the product. For full details please refer to the product packaging or alternatively please contact Brakes Customer Service on 0345 606 9090. All products are shown as serving suggestions.

**Terms & Conditions:** All goods are sold subject to availability and Sysco GB Limited's Terms and Conditions of Sale, a copy of which is available on request or on our website at [www.brake.co.uk](http://www.brake.co.uk). We reserve the right to alter prices, specifications or packaging without notice. VAT will be charged at standard rate on products where applicable. All unit prices are approximate and have been rounded to the nearest whole penny. To conform with requirements of the Food Safety Act 1990 and to protect temperature integrity we may be unable to accept returned product unless notified as damaged or faulty at time of delivery. This does not affect your rights under law. Whilst we make every effort to ensure these details are correct, errors may occasionally occur.

# The Summer of Sport

**This summer promises to be an excellent opportunity for the UK on trade, especially with the Men's Football World Cup taking place in USA, Mexico and Canada between 11th June and 19th July and includes 50% more teams and 40 more matches than ever before!**

Watching Live Sport is the no.1 Growing Occasion for people visiting the On-Trade and the Live Sport consumers visit with More People, More Often and Spending More.

Beer is the key category for live sport and football, but more casual fans come out for big tournaments so ensuring there is a range to fulfil the need of every consumer is key.

As atmosphere is the no.1 driver of where consumers choose to watch live sport, getting your screens in the correct position and the volume at the right level is crucial for creating an unforgettable matchday atmosphere.

It is a Game of Three Halves, fans come out to enjoy the match early and stay beyond the final whistle so maximise this dwell time by ensuring fans are not just staying in your outlet for the 90 minutes of action.

## Summer Serves Made Simple:

# Consistency, Speed & Consumer Appeal

As temperatures rise, so does consumer demand for refreshing, high-quality drinks that are quick to prepare and consistently delicious. For operators, summer is not just about adding iced drinks to the menu – it's about delivering simple, repeatable serves that meet evolving consumer expectations while maximising efficiency behind the counter.

### What are consumers looking for this summer?

Insights from the latest MONIN Trends Report highlight three key shifts shaping summer menus:

- **Iced coffee is booming** – now one of the fastest-growing out-of-home drinks, with 64% of consumers choosing iced coffee when ordering cold beverages
- **Flavour-led customisation** – syrups remain the #1 add-on consumers are willing to pay more for, with caramel, vanilla and hazelnut leading the way
- **Afternoon refreshment occasions** – iced drinks, lemonades and spritz-style serves are driving traffic between 2–5pm, unlocking new revenue opportunities

At the same time, operators are under pressure to deliver speed, consistency and cost control – making simple, scalable solutions more important than ever.

### Why simplicity drives profit

In busy service environments, complex recipes slow teams down and create inconsistency. That's why leading venues are focusing on:

- **Easy-to-build recipes with minimal ingredients**
- **Pre-measured portions using tools like the MONIN 10ml pump**
- **Multi-use ingredients across coffee, soft drinks and mocktails**

Solutions like **MONIN** syrups, fruit purées and concentrates are designed to deliver consistent flavour, texture and quality in every serve, helping reduce waste and training time while increasing speed of service.

# Core Summer Menu: Simple Serves That Sell

Below are just a few examples of high-margin, easy-to-execute serves designed to work across coffee shops, cafés and other foodservice venues.

## Iced Coffee (Fast & Profitable)

### Vanilla Iced Latte

- 20ml MONIN Vanilla Syrup (A148641)
- Espresso + milk + ice

**A staple serve with broad appeal and strong repeat purchase**

### Blueberry Matcha

- 20ml MONIN Blueberry Syrup (A 5019190)
- Matcha + milk + ice

**A simple way to introduce premium, on-trend flavour**

## Lemonades & Refreshers (Afternoon Drivers)

Lemonades are one of the easiest ways to expand your menu and capture incremental sales throughout the day.

### Classic Cloudy Lemonade

- 30ml MONIN Cloudy Lemonade (A 148634)
- Water + ice

**Simple, refreshing, high margin serve**

### Strawberry Lemonade

- 15ml MONIN Strawberry Purée (A 112873)
- 30ml MONIN Cloudy Lemonade (A 148634)
- Water + ice

**Bright, Instagrammable and family-friendly**

## Menu Strategy:

# Do More with Less

The most successful summer menus are built around a small number of versatile ingredients that can be used across multiple serves:

- 1 base (coffee or lemonade)
- 3 – 5 flavours
- Multiple variations

This approach allows operators to:

- Reduce stock complexity
- Train staff quickly
- Deliver consistent quality
- Maximise menu creativity without increasing cost

## The Bottom Line

Summer drinks don't need to be complicated to be successful. By focusing on:

- ✓ **Consistency** – same great taste every time
- ✓ **Simplicity** – quick, easy-to-build serves
- ✓ **Consumer needs** – refreshing, flavour-led options

...operators can create a high-performing drinks menu that drives sales across all dayparts.

With the right products and approach, every venue can deliver premium summer drinks with speed, confidence and profitability.

# Foods of the World – Customer Food Trends

From ingredient led British and Italian to the huge surge in interest in Levantine cuisine, we explore some of the key cuisine trends that are shaping menus across the UK.

## Middle Eastern and Levantine

The trend and interest in Levantine food has been gaining popularity for some time, with people embracing the flavours and traditions of the whole region. Characterised by its fresh ingredients, bold flavours, and wide range of spices and herbs, it's a healthy balance between animal proteins and vegetables.

This cuisine also appeals to the growing number of people exploring plant-based diets, ancient grains and those looking for healthier and more sustainable food options. Ingredients such as hummus and falafel are familiar to most customers, whereas tabbouleh, shawarmas, and shakshuka will bring a sense of excitement and discovery.

Dish inspiration...

## Beetroot Falafel

Delicious falafel made with chickpeas and beetroot, with Moroccan inspired houmous and yoghurt dressing

F 148611 Gosh Beetroot Falafel

C 74817 Pomegranate Seeds

C 118561 Alpro Plain Yoghurt  
Alternative

A 116334 Chilli Cori Lime & Mint Sauce

C 129210 Sysco Premium Moroccan  
Inspired Houmous

C 103550 Seasonal Salad Mix

### Preparation:

Mix the plant-based yoghurt with the chilli, coriander, lime & mint dressing

### Method:

1. Cook the falafel bites according to the packaging guidelines
2. Spoon the houmous onto your chosen serving dish
3. Drizzle the yoghurt dressing on to the plate
4. Arrange the falafel over the houmous and garnish with salad and pomegranate seeds

# East and West African Dishes

East and West African cuisine is growing in popularity and is a food trend to watch! Mouthwatering dishes are packed with spice and flavour, and you can expect lots of garlic, ginger and chilli. The Suya marinade is perfect for infusing chicken, beef and lamb and adds authenticity to menus.

Hand-held treats such as Lamb Sambusas and hearty, warming dishes like our Yassa Fish Curry are accompanied by sides such as Coconut Rice and Chapati to make a filling meal which works as a street-food option for eateries.

Download our **FREE** recipe book at [brake.co.uk/inspirational-food/insights-and-trends/food](http://brake.co.uk/inspirational-food/insights-and-trends/food).

# Taste of Turkey

Turkish food is bursting with flavour and texture and is a firm favourite with customers across all sectors and includes starters and mains including street-food for eating on the go. With plenty of Vegetarian options, alongside tender and tasty meat options, the menu choices are endless and cater for all requirements.

Authentic Turkish Skewers, Kebabs, Flatbreads and pastry treat on your menu add an authentic taste and offer something different. Ideal for a daily or weekly special, why not add theatre to your menu with this exciting new Brakes concept.

# CHOOSE BIG FLAVOUR BEHAVIOUR

## KEEP IT LIGHT: THIS SUMMER'S DRINK TRENDS

Whether consumers are focusing on everyday wellness, watching their sugar intake, or simply looking for an exciting burst of flavour, flavoured waters hit the spot for a lot of different needs. When we look at what is driving growth this summer, lighter, fruit-forward sparkling water stands out as a must-have on any menu.

### #1: WATER DRIVES SUMMER VOLUME

Data shows that water becomes an absolute priority as the weather warms up, bringing 20% more buyers into the category during the summer months\*. Consumers want crisp, light alternatives to traditional beverages, making it a reliable and essential choice for summer menus.

### #2: THE RISE OF FUNCTIONAL WATER

While plain still water remains the biggest volume contributor\*\*\*, the category has evolved toward daily wellness. Functional water is seeing double-digit value growth\*\*\*\* as demand for vitamin-enhanced options soars. Rubicon Vits steps right into this space; its blend of Vitamins B6 and B12 contributes to a normal energy-yielding metabolism, the normal function of the immune system, and the reduction of tiredness and fatigue.

### #3: THE LOW CALORIE SWEET SPOT

Consumers are shifting away from heavy, traditional drinks toward cleaner refreshment that fits modern lifestyle trends. In fact, major cola brands, other flavoured carbonate brands, fruit juice, and fruit drink brands are all seeing sales switch into water. This is where Rubicon Spring fits perfectly, offering a refreshing, fruit-flavored sparkle with under 15 calories.

### #4: REFRESHMENT WITHOUT FATIGUE

Delivering complex fruit flavour profiles in a light format ensures maximum drinkability through the summer months. By stocking options that blend authentic, exotic fruits, like Rubicon's iconic flavour heritage, operators can offer that vibrant summer feeling while keeping the format light and crisp.

## Unlock the Power of Social Snacking And Win!

It's not just about football – it's about winning the growing snacking occasion.

Across foodservice, snacking habits are evolving rapidly.

80% of pub-goers now purchase snacks alongside drinks (CGA by NielsenIQ, Snacking in Pubs Report, 2025). Snacking is no longer secondary – it's a core driver of spend and engagement.

Jacob's Mini Cheddars are perfectly positioned within this space.

Delivering on flavour, texture, and consistency, they meet consumer demand for convenient, satisfying snacks that pair effortlessly with drinks and light food.

By adding Jacob's Mini Cheddars to your range, you can tap into this high-growth occasion with a proven, versatile product that works across multiple channels and formats.

Easy to serve, easy to sell, and perfectly aligned to today's snacking trends.

**That's a result for your customers – and your bottom line.**

# 5 ways to dress a steak - top tips from our chefs

We have an excellent Birchstead steak range, featuring a variety of cuts including sirloin, rump and flat iron. To help you make the most of these quality steaks this summer, our chefs have shared a few ideas to elevate this dish, add value, and offer greater customisation for your customers.

## 1. Marinating dry rubs prior to service

Dry rubs not only add plenty of flavour, but they also create mouth-watering caramelisation on the outside of your steaks.

## 2. Marinating wet rubs overnight

Marinating overnight is a great way to add moisture and ensure your meat is tender when it's time to cook.

## 3. Toppers & flavour boosters

Offering customers a choice when it comes to the flavour of their steak is a real win-win. Diners get to customise their meal, while you can use great ingredients that help save time and reduce waste. These options also add flavour without introducing extra cooking steps.

## 4. Surf & turf

A steakhouse classic. Use either sirloin or ribeye for the centre of the plate — these cuts offer great value.

On the side, serve our award-winning Argentinian rosso shrimps. They're meaty, juicy, and ready to eat once thawed. Or, for something a little less traditional, try the crunchy texture of our bubble bobble red shrimp to help the dish stand out from the crowd.

## 5. Sauces

Who doesn't love a sauce with their steak?

For a more traditional option, try peppercorn sauce or chimichurri. Both are pre-portioned, helping to reduce waste and save on labour.

For something buttery, our hollandaise with a hint of lemon is rich in flavour and a great alternative to butter portions, offering more sauce for your customers.
