EXTENDING YOUR LUNCH MENU

Staying open can be a great way to cater to young professionals or customers looking for evening café culture after work. It's worthwhile thinking about which products will appeal to customers at different times of the day so you can curate your menu to maximise revenues when coffee sales drop.

Offering a range of coffee-based cocktails gives customers a different way to drink coffee in the evening alongside your daytime coffee menu, moreish lite bites, craft beers and cocktails which can help ensure people keep coming later in the day.

MAKE IT A PLOUGHMAN'S...

'A ploughman's is a great offer on any menu. British classics such as mature cheddar, pork pie, pickles and crusty bread continue to be a favourite choice. These few simple ingredients make a brilliant sharing board and can be paired with a drink. Quick and easy to prepare, with next to no cooking too.'
