TOFOO IS BECOMING FRONT AND CENTRE ACROSS HOSPITALITY

Across the sector, the meat free landscape has changed, and consumers are demanding more natural and tasty products.

There was a 56%* increase in diners ordering plant-based meals in UK restaurants in 2024, with tofu becoming a staple protein.

At The Tofoo Co, we have crafted a range of products with Chefs and the specific needs of catering in mind.

“The addition of the Tofoo dishes are a [...] fantastic example of catering to the growing demand for plant-based options while delivering the great taste and quality our guests expect.”

Stonegate Group

Within the last 12 months alone Tofoo has launched into a range of major casual diners, gastro pubs, and food to go venues.

BEYOND TOFOO

TOS Seitan

Tempeh

Available in catering packs

High in Protein
Extra Bite
Super Versatile
Amazing Flavour

Teaming up with our mates at  we've created one hell of a product!

Extremely versatile, our **Seitan** has a savoury flavour and a meaty texture, similar to chicken.

Tempeh has a high protein and high fibre base. Fermented with whole, organic soy beans for a chewier bite than tofu and just as adaptable in the kitchen!
